24/7 ROLLER SHUTTERS & GARAGE DOORS
SAFETY & QUALITY NEVER COMPROMISED

WWW.20FOUR7.CO.UK

Blending the convenience of power operation with smooth, vertical opening and the benefits of insulation, the QualSecure Garage Door provides the perfect solution for any garage.

Manufactured from foam filled aluminium lath, available in fifteen standard colours and five wood effect foil finishes, you can be confident that there is a QualSecure Garage Door to suit your requirements and enhance your property.

Controlled by a unique intelligent remote control system, operation is simply effortless. Additional benefits include security, reduction in heat loss and exterior noise whilst freeing up valuable garage and driveway space.

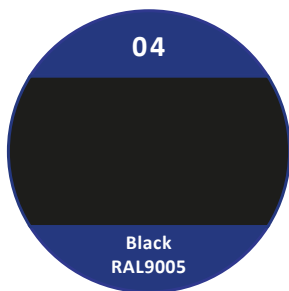

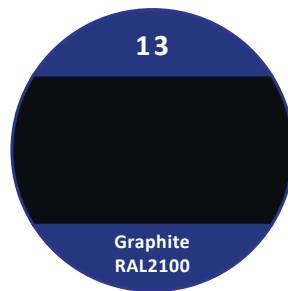

A vehicle can be parked within 50mm of the door without disrupting operation.

Committed to offering the perfect garage door, all QualSecure doors are manufactured using the highest quality components and safety is never compromised.

Finishes Available

Standard Colour Range

Wood Effect Range

Optical Safety Edge

Supplied as standard

Standard Specifications

The constantly monitored wireless optical safety edge system provides optimum safety throughout the entire opening of the door.

Incorporated within the existing remote control system via a discreet plug-in card.

Activation by physical obstruction immediately stops and returns the door to the fully open position.

As the system is constantly monitored, the general life expectancy of the transmitter batteries is two years.

02

Canopy:

Roller garage doors are supplied with a full canopy as standard, giving additional strength to the construction of the door whilst shielding moving parts. The use of a canopy is undoubtedly more aesthetically pleasing (Dimensions: 300mm x 300mm)

01

Electrically Operated:

Powered by a fully CE compliant, single phase 240 volt tubular motor with a built-in manual override facility allowing the door to be operated manually in the event of mains failure

03

Profile:

Garage Doors are manufactured from a heavy duty, twin wall, CFC free foam filled aluminium profile. The use of foam provides strength and proven insulation values, reducing heat loss and exterior noise. Certified U Value of 4.73W/m² K. (Dimensions: 77mm x 20mm)

04

**Guide Section
c/w Brush
Strips:**

Our deep, heavy duty guide section provides safety and security against high winds and would-be intruders. The two brush strips protect the curtain from unnecessary wear and ensure smooth operation whilst also reducing heat loss and exterior noise. (Dimensions: 95mm x 34mm) **Reduced guide section available dimensions: 78mm x 34mm**

05

**Safety
Brake:**

The fully CE compliant anti-fallback device prevents the door from freefalling when in the open position in the unlikely event of a motor failure.

06

**Auto
locks:**

These heavy duty, anti-lift devices offer security against would-be intruders by preventing the door from being opened when in the fully closed position.

07

**Bottom
Profile:**

A heavy duty extruded aluminium bottom profile complete with a deep rubber seal provides additional strength and protection against adverse weather conditions. (Dimensions: 78mm x 19mm)

Domestic Shutters

Door and Window Shutters for Complete Home Security

The increasing need for security in the home has led to an expansion in the market and the development of shutters that are both secure and attractive on a residential property.

The shutters or grilles can be coloured to match the decor of your property, or if you wish contrast with it.

Changing times have led to a demand for increased security and energy efficiency in the home. Roller Shutters are an ideal solution to this demand, and do so effectively and attractively. Domestic roller shutters have a much lower profile than commercial roller shutters, and are available in many different styles and colours. In addition special models are available such as extruded aluminium roller shutters for extra security, and foam filled models for greater heat and noise insulation characteristics.

Roller Shutters

As you will see 24-7 Roller Shutters have an excellent knowledge and reputation for supplying quality goods and services in all aspects of the door industry.

We have one of the most comprehensive range of shutters on the market today and most of these products can be adapted to suit all different types of sites and uses.

Furthermore, 24-7 Roller Shutters will not only supply, install and repair this equipment, but we will also give you the same high standards in our Annual Maintenance Agreement. This will ensure that all your shutters, are kept in the best possible condition.

Free surveys are provided for both new installations and repairs. Emergency Call all outs during normal working hours are usually dealt with on a same day basis, however a 24 hour service is available for use in an emergency.
